I am writing to respectfully urge you to reject the National Association of Broadcaster's petition 04-160. I am a subscriber to XM Radio and am extremely pleased with my service and do not want local channels to take away my freedom to listen and receive the services that benefit me. I will also say that I still listen to local stations as well, so I do not see this as interfering with their ability to compete. Please reject this petition and continue to stand for responsible free speech.

Sincerely,

Richard Hendricks
